## PROFESSIONAL SUMMARY

Junior SOC Analyst experienced in threat detection, incident investigation, SIEM monitoring, and log analysis. Skilled in Microsoft Sentinel, Microsoft Defender for Endpoint, Splunk, Elastic Stack, and KQL, with practical experience from Hack The Box and Microsoft SC-200 labs. Currently pursuing the SC-200 certification and seeking a remote SOC Tier 1 role.

## Core Competencies

### Security Operations

Security Monitoring // Alert Triage // Incident Response // Threat Hunting // IOC Analysis // MITRE ATT&CK

### SIEM & Detection

Microsoft Sentinel // Microsoft Defender for Endpoint // Splunk // Elastic Stack // Sysmon

### Investigation & Analysis

Log Correlation // Windows Event Logs // Endpoint Telemetry // Network Traffic Analysis // Wireshark // VirusTotal

**Scripting & Querying** (KQL // SPL // Python // Bash // PowerShell // SQL)

**Networking & Systems** (Linux // TCP/IP // DNS)

### SOC Analyst Labs — Hack The Box

- Detected and investigated brute-force attacks, reverse shells, privilege escalation, and lateral movement.
- Correlated multi-source logs to reconstruct attack timelines and identify adversary activity.
- Analyzed Windows Event Logs and Sysmon telemetry to detect suspicious authentication and process execution.
- Mapped attacker behavior to MITRE ATT&CK techniques.
- Performed alert triage, investigation, escalation, and incident documentation.
- Utilized Splunk and Elastic Stack for threat detection and log analysis.

### **Threat Detection & Monitoring — Microsoft SC-200 Labs**

- Developed detection rules and KQL queries in Microsoft Sentinel.
- Investigated endpoint alerts using Microsoft Defender for Endpoint.
- Analyzed process trees, timelines, and endpoint telemetry.
- Configured SIEM data connectors and custom detections.
- Practiced incident triage, investigation, and escalation workflows.

### **EDUCATION**

#### **BSc in Systems Engineering (6th Semester)**

Universidad Simón Bolívar – Barranquilla, Colombia

**Academic tutor** for the Systems Engineering program.

### **CERTIFICATIONS**

- Microsoft Certified: Security Operations Analyst Associate (**SC-200**) – *In Progress*
- Cambridge Linguaskill English B2

### **LANGUAGES**

- Spanish – Native
- English – B2
